Learning Environment

Let’s have a look around

strigo | A quick walk-through of Strigo's hands-on virtual classroom

Main navigation

My Profile

Follow presenter toggle
Choose between following the presenter's position or freely navigating through the classroom. Got lost? no problem, just toggle the switch back on and you will be taken to the presenter's current position

Presentation

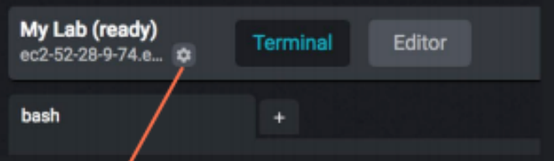
Whiteboard

Code Snippets

Share Screen
This will allow you to view the presenter's workstation

Your personal workstation
Where you will be doing all the hands-on practice. This environment comes equipped with a terminal and a code editor connected to a cloud instance. In case you need assistance, someone from the training staff can connect to your workstation and work collaboratively with you.

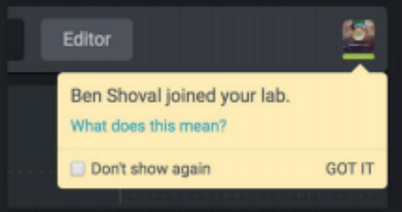
Personal workstation



You can connect locally to the machine via SSH

Collaborative hands-on session with the presenter

Training staff can join your lab, their avatar should appear on the top right corner of your workstation as follows:



Private audio/video session with the presenter

Private sessions are triggered by the training staff, when invited to start a private session you will see this dialog, to start the session, simply click accept
